Declaration of Items Safe for Air Travel:

I, [Your Full Name], hereby certify that the information contained herein is true and accurate. The following applies to the cleaning procedures and shipping preparation of a USED [Manufacturer and Brand Name of Engine] 2 Cycle Engine to be shipped as baggage/luggage for air travel.

I attest that the engine to be shipped is completely NON-HAZARDOUS and NON-FLAMMABLE. There are no volatile or hazardous materials present in the shipment. There is minimal or any residual odor and it is contained in heavy plastic bags.

This shipment has been packed being free and clean of any flammable liquids or substances. I also declare that the content of this shipment is neither dangerous nor covered by any definition of dangerousness as per IATA, ICAO and concerned governments, current edition. I hereby undertake the liability for any eventual damage resulting from any false, imprecise or incomplete declaration.

Here is a summary of the cleaning procedure and shipping preparation of this shipment:

Removed spark plug, carburetor, and exhaust
30+ minutes for oil/fuel drain of engine & fuel lines
5+ minutes of compressed air in engine.
5+ minutes of compressed air in fuel tank.
Carburetor opened, drained of any fuel, thoroughly cleaned and dried.
2+ days of air drying any residual fumes in engine, fuel tank, fuel lines, and carburetor.
Cleaned exterior of engine and tank of any residual fluids by absorbent cloths and compressed air.
Packed all parts in heavy, non-porous plastic.

Respectfully,

[Your Signature]
